Light single - Germany

New single 'Light' - out in Germany in June

'Light will be the new German single for Australian singer songwriter Rich Webb, following his recent success with 'Don't Feel So Sad' - which scored national airplay in Germany and tremendous reviews.

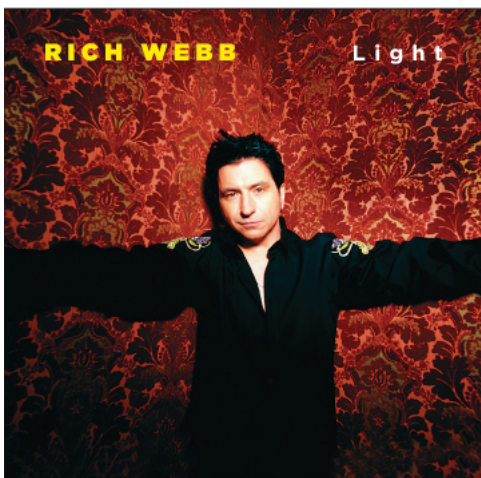

Light is a cracking rock and roll number - as catchy as all hell. The pounding drums drive the verse forward until, like a 747, the song hits the end of the runway and takes off with a ripping chorus that makes a beeline for the sun. Then there's a sweet sing-along coda. It's got it all!

The single includes a radio edit by Howard 'Fingers' Bargroff, the album version of Light and a previously unreleased Rich Webb song 'About a Girl', featuring Chris Letcher on keys and key arrangements.

Rich will be supporting the release with a German tour in April through to June. There is also a video coming soon, shot on a steamy Sunday in March at Fitzroy's rock and roll drinking establishment The Rob Roy.

Light will be the second single in Germany taken from Rich's latest album 'Overboard'.
